Resumé

Qualifications

My primary competencies are within Full Stack Web Development. For the last 13 years, I have had a great interest in making websites and web applications. What happens in a browser I find very interesting. That's what I'm best at, and that's what I'm passionate about.

I am smiling, welcoming, happy to learn new things, and to pass on my knowledge. I am respectful in my dealings with other people.

Work experience

2019-2021

Web developer – AK Techotel A/S
- Web development of Online booking 2020 hotel system for over 700 hotels.
- Further development of Online booking 2020 hotel system in Umbraco CMS, .NET 4.8 and JQuery in an MVVM architecture.
- Further development of Picasso hotel system info screens.
- New development of Online gift cards in Umbraco CMS.

2018-2019

Web developer – Risma Systems A/S
- Web developer in Risma Systems, I worked with Vue.js and PHP Laravel as part of their development team for their License Manager platform.
- Update of License Manager, PHP Laravel framework 5.2 to 5.6.
- Developed their new Risk Matrix in Vue.js.

2012-2013

Bicycle fitter – Tria Cykler ApS
- In apprenticeship at Tria bikes where I worked with repairing bikes, adjustment, lubrication and assembly of new bikes. I also served customers with sales bicycles, helmets, lights, clothes, shoes, locks, etc.

2010-2011

Web developer – LO Danmark A/S
- Web developer at LO, I worked with their SharePoint 2007 system in collaboration with other consultants from both Atea and an English consulting company. We had to complete the last details on the system

where I developed their menu bars using JavaScript, HTML as well Photoshop. I have also done both unit test, browser test and example test on their SharePoint system, which was included in their documentation. To secure the system for the future, I came up with ideas and mock-ups that could later be used for a mobile-friendly solution on iOS and Android.

- Implementation of some machine installations of Windows 7 for the internal IT department in LO Denmark.

2007-2010

Store employee – Fakta A/S

- As an employee at Fakta, I worked in all departments in the store and at the checkout. I ordered items for the green department as well as beer, water and candy. I have in-depth knowledge of the Safepay system when it was used at checkout and refilling money.

2006-2007

Customer support – Clearwire Danmark A/S

- In Clearwire, I worked in their hotline as custom relation contact where support had to be provided with customers' Wi-Fi boxes so that they came to work. In addition to telephone support, I was also out to customers along with Clearwire's technicians.

Education

2019-2020

PBA – Web developer – CPH Business Academy

- Education in JavaScript frameworks (Node.js Express, React.js, React Native, Vue.js), Vanilla CSS, SASS, Bootstrap, Bootstrap-vue and some backend in .NET C #. Git versioning tool was used for the projects.

2016-2019

AP - Datamatiker (Computer scientist) – CPH Business Academy

- Education in System Development, Software Development in Java, C # and some front end in JavaScript and React.js. Git versioning tools were used for the projects as well as SCRUM and XP practices.

2015-2016

HF – Efterslægten

- Teachings in Mathematics C + B, Danish A, English C + B in individual subjects, which was primarily to qualify me for the Computer Science program. It was completed with both oral and written exams in all subjects.

CV – continued

2011-2013

Bicycle fitter – TEC Hvidovre
- Trained to repair bicycles, fit tires, hose, gears and assemble new bicycles, weld and solder.
- The training included how to handle customer service and the use of e-commerce product system.

2007-2009

Web-Integrator – RTS Roskilde
- Education in primarily web development of websites with HTML, CSS and JavaScript on the .NET platform where I developed in C#.
- Part of the training was spent on making our own CMS and web shops. It was completed with a finishing assignment over a 5-day period, where a website was to be prepared based on given requirements for content, functions and documentation of the solution.

2006-2007

### Basic course Datatekniker (Computer technician) – TEC Ballerup
- Training in Cisco router and Cisco networks as well as Windows XP.
- I learned many things from the previous electronics mechanic training such as soldering, karnaugh cards and pneumatics. It ended with a two-part trial in Cisco First Part and Windows XP.

2005-2006

Genstart (Reboot) – København Nord
- Teachings in website development with HTML, CSS and JavaScript and other digital content such as movies in VideoPad and image material in Photoshop CS.

Private life

I live in Herlev with my girlfriend Anja where we have a nice dog named Jakob, that we go for long walks with. I love fishing and I am also a member of a fishing club where we go to many places around Zealand to fish for seasonal fish.
